SUMMARY

Frontend Developer with 4 years of commercial experience and 5 years in software development overall, including 8+ years of working in Polish environments. Specialized in building scalable EdTech solutions using **React**, **Next.js**, **TypeScript**, and **GraphQL**. Delivered high-impact features including course generation systems, subscription management, and analytics dashboards, accelerating content creation by 4x and improving development velocity by 20–30% through AI-assisted development.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3.
- **Libraries & Frameworks:** React, Next.js (v14/15 - SSR/App Router), Redux, Context API.
- **UI & Data Viz:** Material UI (v4 to v7 migration), Chart.js, Styled Components, Emotion, Tailwind CSS.
- **Forms & Logic:** React Hook Form, Custom Hooks.
- **API & Data:** GraphQL (Apollo), WebSockets (Mercure), REST API.
- **Tools & AI:** GitHub Copilot, ChatGPT, Git, Webpack.
- **Collaboration Tools:** ClickUp, Slack, Miro, Figma.
- **Methodologies:** Agile, Scrum, Kanban, Code Reviews, Estimation.

WORK EXPERIENCE

Frontend React Developer

"Digital Creative Cluster" | "Learning-Space Sp. z o.o." June 2022 – Present

Created approximately 50% of the project's front-end functionality for a complex educational ecosystem. Successfully integrated into the Polish team, contributing to the platform's evolution from a startup to a mature product.

Key Business Impact & Achievements:

- **Business Growth:** Delivered critical features that helped secure **3 new major clients and investors**, ensuring the project's financial scalability.
- **Content Repository:** Engineered a module-sharing system that allows reusing lessons, exams, and events across courses. Designed a multi-step course generator and payment flow generator, **accelerating content creation for users by 4 times**.
- **Subscription & Revenue:** Built a complex Subscription Manager and payment dashboard, **automating the billing process** and improving UX for paid users.
- **Data Visualization:** Developed interactive analytics dashboards using **Chart.js** and DND widgets, enabling **real-time progress** tracking for students and teachers.

- **i18n & Localization:** Implemented and managed multi-language support (PL, EN, ES, IT) including a dynamic language switcher, **leveraging AI to accelerate translation workflows and dictionary management.**
- **Cost Efficiency:** Optimized internal asset management and Webpack configurations, **reducing third-party service costs.**
- **Performance & Migration:** Led the progressive migration of legacy components to TypeScript and updated Material UI to ensure a modern, type-safe UI, **utilizing AI-assisted refactoring to significantly speed up the transition process.**
- **Real-time Features:** Integrated WebSockets (Mercure) for instant user notifications and **live platform activity.**
- **AI-assisted development:** leveraged **GitHub Copilot** and **LLM** tools to automate boilerplate and routine tasks, **improving development velocity by ~20–30%.**

Team & Process:

- Active participation in **Agile/Scrum** ceremonies: daily stand-ups, sprint planning, and reviews.
- Collaborated on feature architecture in **Miro** and task estimation in **ClickUp**.
- Conducted onboarding for new developers and maintained code quality through rigorous **code reviews.**

Personal Projects: Developed several modern web applications using **Next.js 14/15 (App Router, Server Components)** to master SSR (Server-Side Rendering), SEO optimization, and performance patterns in React environments. Code available on [GitHub](#) and [portfolio website](#).

LANGUAGES

- **Polish:** (C1)
- **English:** (B2)
- **Ukrainian:** (Native)
- **Russian:** (Native)

EDUCATION

- **IT School "GoIT":** Full Stack Developer (JS, React, Node.js)
- **Policealna Szkoła Zawodowa "Eduatut":** IT Specialist
- **European University:** Finance
